StaThick-MS-CWS-E1414

COLD WATER SOLUBLE ACETYLATED DISTARCH PHOSPHATE

APPLICATIONS

As a Stabilizer and Thickener:

It can be used in foods as a stabilizer in oily foods. StaThick-MS-CWS-E1414 emulsifies fat and prevents it from separating from the products like Cream fillings, Fruit Pie fillings, Gravies, Sauces and Mayonnaise. When added to foods, the modified starch forms gels and thickens the texture without having to be heated.

Better water holding capacity:

Maintain high moisture content & lower oil uptake in the product. Give the product best Water Holding Capacity.

For Gluten-Free Products:

It can be used as a Gluten-Free substitute in various foods including Nuggets, Meat Balls, Cutlets, Chicken Finger, Popcorn, Sausages, Flavored Sausages and Ready to Fry Minced meats.

FEATURES AND BENEFITS

It is highly bio-degradable and causes no harm to the Environment.

StaThick-MS-CWS-E1414 is a White powder that adds no color to application and blends well with other ingredients. It has a bland taste and so will not mask flavors or aromas.

StaThick-MS-CWS-E1414 contains no fat, protein, fiber, vitamins, or other minerals.

StaThick-MS-CWS-E1414 acts as an excellent water and fat binder, and as great texturizer in cold applications. It ensures good film forming properties
